

WINTER DEFENSE SYSTEM

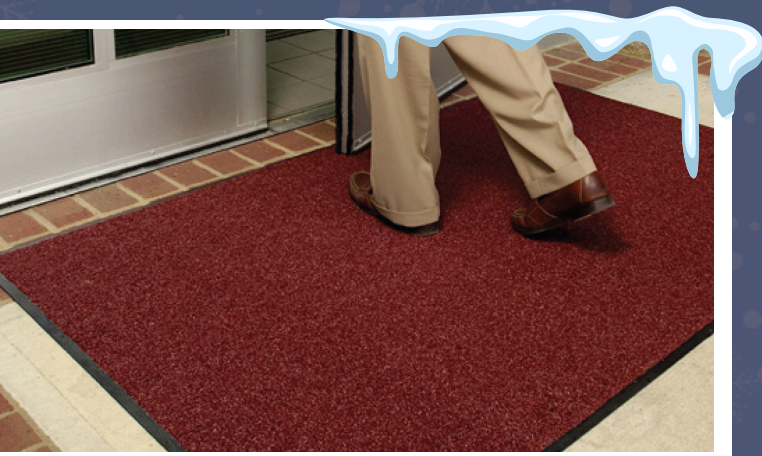

Protect your facility from winter's impact. Keep walkways clear with ice melter, trap salt and moisture at the door with proper floor mats, and eliminate residue that dulls and damages floors with the right floor cleaner. This **3-step system** keeps your spaces clean, safe, and ready for anything winter brings.

SSS Smart Choice Ice Melter

Ice melt is the first line of defense for keeping walkways and paths safe, while reducing tracked-in snow and ice.

1

2

SSS Brush Clean Scraper Mat

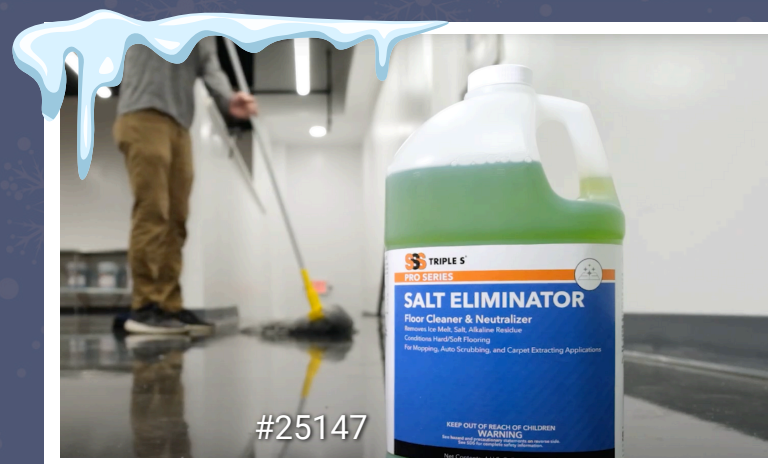

Mats act as a guard against moisture, salt, and debris trapping them before they enter the facility.

SSS Salt Eliminator

Floor Cleaner & Neutralizer

Floor cleaner prevents premature stripping of floor finish, discoloration of tile and breakdown of carpet fibers while reducing slips, and keep floors looking their best.
